

LET'S WORK TOGETHER!

STRICT GUN CONTROLS ARE URGENT

It is vital for all states to not only strengthen their own laws and legislation but to work together in order to end the illicit misuse and proliferation of SALW. We urge you to strengthen international cooperation and assistance in your actions to control SALW by:

- Encouraging and enabling states emerging from conflict to build sustainable capacity,
- Working with neighboring states to address the issue of porous and open borders and implement strong border control,
- Enhancing inter-agency coordination and cooperation.
